# Small vehicle, fast attack

A compact high-pressure unit mounted on a pick-up. Ideal for site patrols, mining camps, industrial parks and narrow access: one person operates it, and the fog jet extinguishes with very little water.

**PUMP PRESSURE**
**100–160 bar**

**WATER TANK**
**300–1,000 L**

**FLOW RATE**
**1,800–2,000 L/h**

**JET RANGE**
**12–15 m**

## KEY SPECIFICATIONS

| | |
|---|---|
| Carrier | 4x2 or 4x4 pick-up, trailer or skid |
| Water tank | 300, 500 or 1,000 L |
| Foam tank | Stainless steel, water/foam mix |
| Pump pressure | 100–110 bar petrol · 150–160 bar diesel |
| Flow rate | 1,800–2,000 L/h |
| Jet range | 12–15 m |
| Hose reel | 30, 60 or 100 m, electric or manual |

**1 operator**
runs the whole unit

# Everything in one module

A self-contained high-pressure module that fits in the load bed of a pick-up.

**1 LED light bar & siren**
Warning lights on the cab roof.

**2 Water & foam tanks**
Stainless steel, 300 to 1,000 L.

**3 4x4 pick-up**
Double cab, agile on rough tracks.

**4 Pump & engine**
Petrol 100–110 bar or diesel 150–160 bar.

**5 Hose reel**
30, 60 or 100 m of high-pressure hose.

**6 Control panel**
Gauges and valves for one operator.

**7 Load-bed mounting**
Bolted in place, removable when needed.

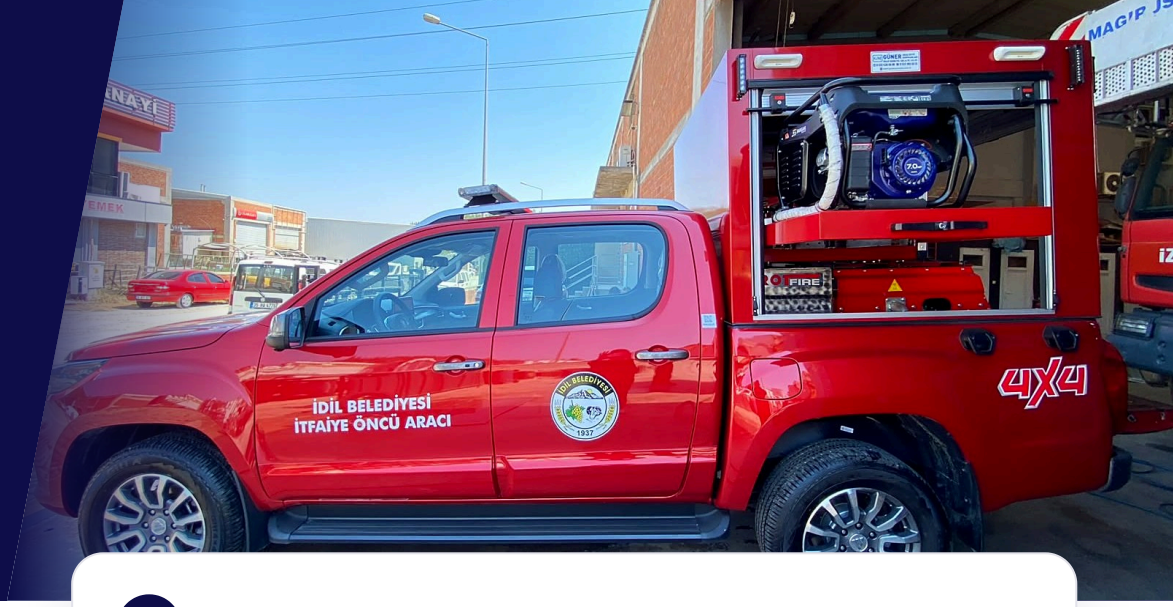

## HIGHLIGHTS

- Very low water use
- Single-operator control
- Ready in seconds
- Narrow and rough access
- Pick-up, trailer or skid

04 — IN THE FIELD

# First on scene, every time

Small fires become big fires in minutes. A rapid intervention vehicle gets there first.

### Quick start

Electric start and a simple panel: water on the fire within seconds.

### Fog, not flood

High-pressure fog cools fast and uses a fraction of the water.

### Goes where trucks can't

Pick-up size for camps, plant roads, alleys and forest tracks.

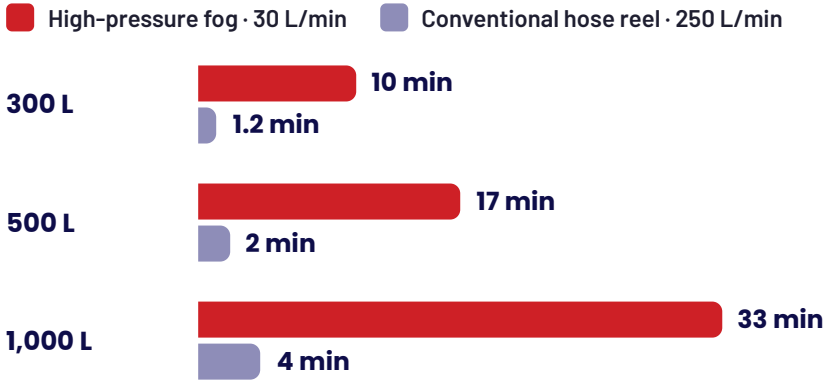

### Easy to own

Standard engine and pump, low running costs, simple service.

**33 min** of fog attack from a single 1,000 L tank.

## More time on the fire

Minutes of attack from one tank: high-pressure fog against a conventional low-pressure hose reel.

**8×**
longer on the fire than a 250 L/min reel

**1 person**
deploys and operates the unit

*Calculated from tank volume ÷ flow rate (1,800 L/h = 30 L/min).*

# Three ways to mount it

The same high-pressure module fits the carrier that suits your site.

## Pick-up module

Installed in the load bed of a 4x2 or 4x4 pick-up, behind a roller shutter.

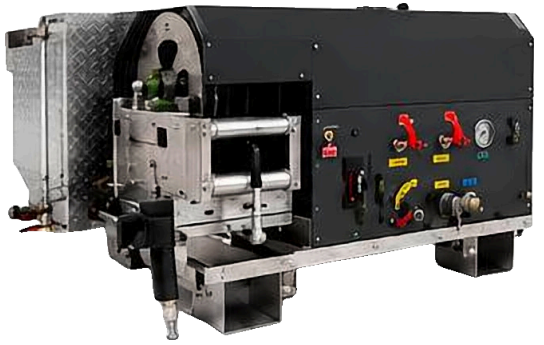

- 4x2 or 4x4 double cab
- Roller-shutter or open bed

## Trailer unit

Towed by any vehicle and parked exactly where it is needed.

- Tank 300 to 1,000 L
- Moves with any towing vehicle

## Skid unit

A self-contained frame for flatbeds and utility trucks.

- Bolt-on installation
- Petrol or diesel engine

*Petrol engine 100–110 bar or diesel engine 150–160 bar. Tank 300, 500 or 1,000 L. Values are indicative.*

# Inside the module

Every component is chosen for reliability and simple maintenance in the field.

## Water tank

- 300, 500 or 1,000 L
- Stainless steel

## Foam tank

- Stainless steel
- Water/foam mixing

## Hose reel

- Electric or manual rewind
- 30, 60 or 100 m hose

## Pump and engine

- Petrol: 100–110 bar
- Diesel: 150–160 bar

## High-pressure hose

- 30, 60 or 100 m
- Stored on the reel

## Jet/fog gun

- 12–15 m jet range
- Jet and fog patterns

**STANDARD EQUIPMENT**

Pump and engine set · Water tank · Foam tank with mixing · Hose reel with high-pressure hose · Jet/fog gun · Operator control panel

**OPTIONAL EQUIPMENT**

Electric hose reel · Diesel engine · 1,000 L tank · Roller-shutter body · Rescue tool storage · LED light bar and siren · Telescopic light mast

# From order to operation

One partner from the first specification to ten years of spare parts.

**01 — Your requirements**
Quantity, chassis, capacity and options.

**02 — Tailored offer**
Technical specification and quotation.

**03 — CAD/CAM design**
3D design agreed with you before production starts.

**04 — Built in İzmir**
Manufactured in our Bornova factory.

**05 — Delivery**
30–90 days, FOB or CIF.

**06 — Training & handover**
At our factory, or at your site for larger orders.

## Support for the vehicle's life

2-year warranty, 10 years of parts

## APPLICATIONS

- Mine site patrols
- Camps & accommodation
- Industrial parks
- Bush & grass fires
- Rural municipalities
- Campuses & facilities

References: İzmir Metropolitan Municipality and municipalities across Türkiye · exports to Libya, Lebanon and Turkmenistan.

## INCLUDED WITH EVERY VEHICLE

**Training at our factory**
Always offered; training at your location for larger orders.

**Technician on site**
If needed, we send a technician for first-hand repair.

**Documentation in English**
Operator manuals, wiring diagrams and parts catalogues.

**Design approval**
You approve the CAD drawings before production starts.

**Certified**

- **CE** — EU conformity
- **ISO 9001** — Quality
- **ISO 14001** — Environment
- **ISO 45001** — Health & safety
- **ISO 28001** — Supply-chain security
- **TS 12681** — Turkish standard
- **TS 12047** — Turkish standard

REQUEST A QUOTATION

# Tell us about your project

Send us these details and we will prepare a tailored technical and commercial offer.

- Quantity and destination country
- Chassis: supplied by Güner or by you, preferred brand
- Capacity and key performance you need
- Options from the equipment list
- Operating conditions: climate, altitude, terrain
- Livery, logos and label language
- Delivery terms: FOB or CIF port
- Tender documents or technical specification, if any
