Every rescue tool, ready to go

Modular aluminium rescue bodies on chassis-cab or double-cab pick-up. Telescopic slides bring hydraulic tools, saws, lighting and breathing apparatus within reach from the ground.

GENERATOR
9 kW diesel

FRONT WINCH
4,310 kg

CARRIER
4x2 · 4x4

RESCUE KIT
Full rescue kit

KEY SPECIFICATIONS

Carrier	4x2 or 4x4 crew cab, from 2,500 kg
Body	Modular, aluminium
Storage	Telescopic slides, ergonomic layout
Generator	9 kW diesel, electric start
Front winch	4,310 kg, remote-controlled
Lighting	LED locker lighting, scene lights, light mast
Rescue kit	Full rescue kit, delivered ready to use

Full rescue kit
tools, saws, tripod and breathing sets

Every tool in its place

Lockers open from the ground on telescopic slides, so the crew never has to search.

1 Equipment cases
Breathing apparatus and protective gear.

2 Tool lockers
Hydraulic rescue tools on slide-out trays.

3 Lower drawers
Heavy tools within easy reach.

4 Roof rack
Long tools and ladders on the roof.

5 Crew cab
Double cab for the rescue team.

6 Power unit
9 kW diesel generator and motor pump.

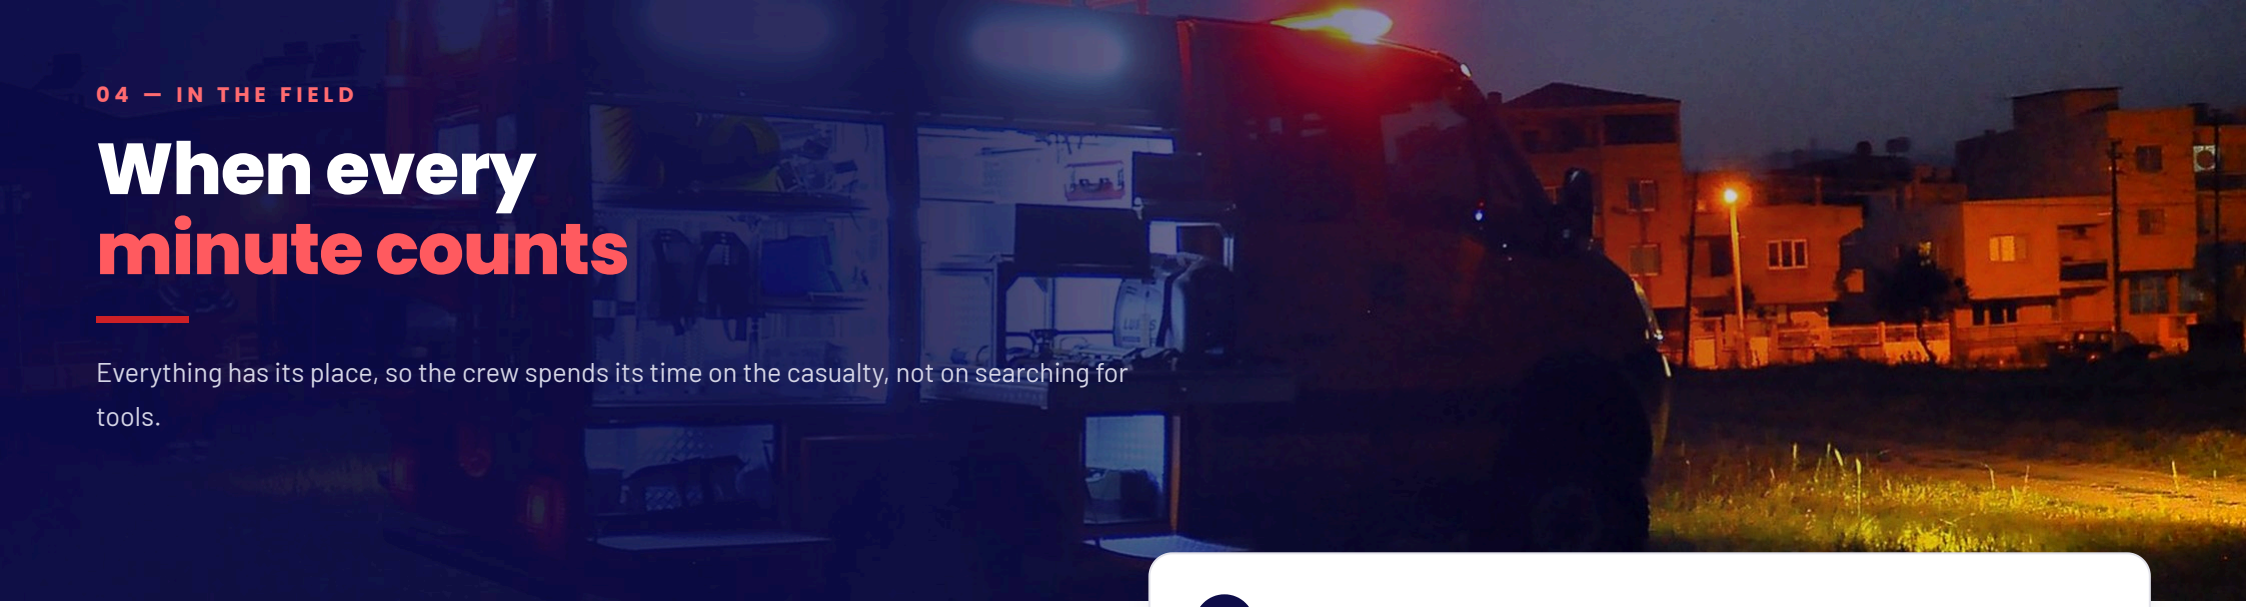

7 Front winch
4,310 kg, remote-controlled.

HIGHLIGHTS

- **Full rescue kit on board**
- **9 kW on-board generator**
- **Remote-controlled winch**
- **LED scene and locker lighting**
- **Modular aluminium body**

When every minute counts

Everything has its place, so the crew spends its time on the casualty, not on searching for tools.

Fast deployment

Slides and drawers open from the ground, no climbing.

Full rescue kit

Delivered with hydraulic tools, saws, tripod and breathing sets.

Power on scene

9 kW generator for tools and floodlights.

Self-recovery

4,310 kg remote-controlled front winch.

9 kW | on-board diesel generator powers tools and scene lighting.

From arrival to rescue

The vehicle is equipped for every stage of a technical rescue.

Step 1
Arrive and secure
Light bar, siren and traffic kit protect the scene.

Step 2
Light and power
9 kW generator, floodlights and tripod lighting.

Step 3
Stabilise and cut
Hydraulic cutter, spreader and ram, chainsaw and cutting saw.

Step 4
Recover
4,310 kg remote-controlled winch for vehicles and loads.

Built on the right carrier

From light pick-ups to off-road trucks, each rescue body is sized for the mission and the terrain.

Chassis-cab rescue truck

Large aluminium body with roof access and rear ladder for a full rescue kit.

- Crew cab, 4x2 or 4x4
- Side and rear lockers

4x4 rescue pick-up

Compact and agile for first response and difficult access.

- Double cab, 4x4
- Lockers with slides

Off-road rescue truck

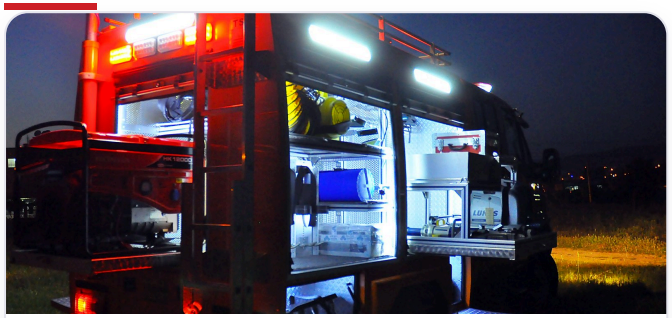

High-mobility chassis for disaster areas and remote mine sites.

- Roller-shutter lockers
- Roof rack and rear ladder

Every vehicle is built to order: body layout and equipment lists are adapted to your teams and risks.

Tools for every scenario

Every vehicle leaves the factory with a full rescue kit, organised so the crew can reach each tool from the ground.

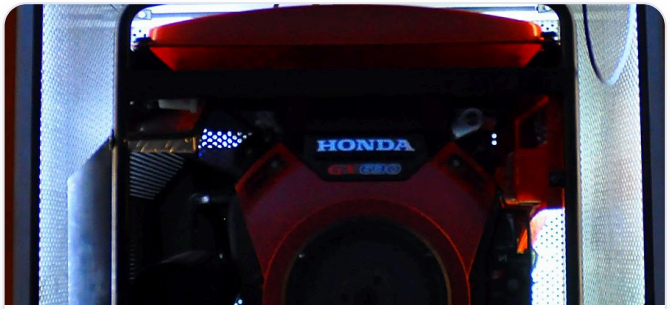

Work and scene lighting

LED light bars on the body, lit lockers and a telescopic light mast turn night into day around the vehicle.

Organised lockers

Slide-out trays and shelves hold every tool in its place, lit from inside.

Power unit

On-board generator for hydraulic tools, lights and power tools at the scene.

Extrication tools

- Hydraulic cutter, spreader, ram
- Chainsaw and cutting saw

Front winch

- 4,310 kg pulling force
- Remote-controlled

Safety kit

- Breathing apparatus sets
- DCP and CO2 extinguishers

STANDARD EQUIPMENT

Full rescue kit: Hydraulic cutter, spreader and ram · Chainsaw · Concrete/steel cutting saw · Tripod rescue set · Tripod lighting · Traffic kit · Breathing apparatus set · 6 kg DCP extinguisher · 5 kg CO2 extinguisher · Mechanical rescue tools

OPTIONAL EQUIPMENT

Additional rescue equipment · Protective equipment · Telescopic light mast · Portable ladder · Red flashers · Exterior lighting · Ice-white LED scene lighting

From order to operation

One partner from the first specification to ten years of spare parts.

01 — Your requirements
Quantity, chassis, capacity and options.

02 — Tailored offer
Technical specification and quotation.

03 — CAD/CAM design
3D design agreed with you before production starts.

04 — Built in İzmir
Manufactured in our Bornova factory.

05 — Delivery
30–90 days, FOB or CIF.

06 — Training & handover
At our factory, or at your site for larger orders.

Support for the vehicle's life

2-year warranty, 10 years of parts

APPLICATIONS

- Mine rescue
- Civil protection
- Road accidents
- Natural disasters
- Industrial sites
- Municipal services

References: İzmir Metropolitan Municipality and municipalities across Türkiye · exports to Libya, Lebanon and Turkmenistan.

INCLUDED WITH EVERY VEHICLE

Training at our factory
Always offered; training at your location for larger orders.

Direct remote support
By phone, video call or WhatsApp; a technician on site for first-hand repair if needed.

Documentation in English
Operator manuals, wiring diagrams and parts catalogues.

Design approval
You approve the CAD drawings before production starts.

Certified

- **CE** — EU conformity
- **ISO 9001** — Quality
- **ISO 14001** — Environment
- **ISO 45001** — Health & safety
- **ISO 28001** — Supply-chain security
- **TS 12681** — Turkish standard
- **TS 12047** — Turkish standard

REQUEST A QUOTATION

Tell us about your project

Send us these details and we will prepare a tailored technical and commercial offer.

- [x] Quantity and destination country
- [x] Chassis: supplied by Güner or by you, preferred brand
- [x] Capacity and key performance you need
- [x] Options from the equipment list
- [x] Operating conditions: climate, altitude, terrain
- [x] Livery, logos and label language
- [x] Delivery terms: FOB or CIF port
- [x] Tender documents or technical specification, if any
